The topographic base map for this FIRM revision is derived from aerial lidar surveys conducted between 2005 and 2008. Orthophotography acquired in 2009 was used where lidar coverage was unavailable for portions of Clatsop County.

The AE Zone category has been divided by a Limit of Moderate Wave Action (LIMWA). The LIMWA represents the approximate landward limit of the 1.5-foot breaking wave. The effects of wave hazards between the VE Zone and the LIMWA (or between the shoreline and the LIMWA for areas where VE Zones are not identified) will be similar to, but less severe than those in the VE Zone.
