NOTES TO USERS

For information and questions about this map, available products associated with this FIRM including historic versions of this FIRM, how to order products or the National Flood Insurance Program in general, please call the FEMA Map Information eXchange at 1-877-FEMA-MAP (1-877-336-2627) or visit the FEMA Map Service Center website at <http://msc.fema.gov>. Available products may include previously issued Letters of Map Change, a Flood Insurance Study Report, and/or digital versions of this map. Many of these products can be ordered or obtained directly from the website. Users may determine the current map date for each FIRM panel by visiting the FEMA Map Service Center website or by calling the FEMA Map Information eXchange.

Communities annexing land on adjacent FIRM panels must obtain a current copy of the adjacent panel as well as the current FIRM index. These may be ordered directly from the Map Service Center at the number listed above.

For community and countywide map dates refer to the Flood Insurance Study report for this jurisdiction.

To determine if flood insurance is available in this community, contact your Insurance agent or call the National Flood Insurance Program at 1-800-639-6620.

Basemap information shown on this FIRM was derived from USGS (panel layout dated 1998), Oconee County (political areas dated 2007), Georgia DOT (political areas dated 1997, transportation data dated 2011, hydrographic features dated 1996), US National Atlas (political areas dated 2005), and Glynn County (orthophotography dated 2010) digital data.

The AE Zone category has been divided by a Limit of Moderate Wave Action (LimWA). The LimWA represents the approximate landward limit of the 1.5-foot breaking wave. The effects of wave hazards between the VE Zone and the LimWA (or between the shoreline and the LimWA for areas where VE Zones are not identified) will be similar to, but less severe than those in the VE Zone.
